This booklet, in conjunction with the enclosed CD, is designed to provide principals, teachers and school psychologists throughout Australia, with a greater awareness and understanding of the significant impact learning disabilities can have on students, and to outline the most effective remediation and accommodation strategies available to them in the classroom.

The CD contains a copy of the Guide plus a wide range of effective resources and strategies, all of which can be saved and printed for use throughout the school.

It covers everything from phonics, reading, written expression, maths, working memory and improving handwriting and more. The Revised Edition was published in January 2019.
